District Billing Policy		

## WSD Rates Fees

1. District will not perform partial month or partial period billing resulting from the transfer of property ownership or if a rental property, a change in tenant. District provides settlement states to title companies and property owners upon request. Fees for settlement statements apply.
2. Buyer of property, where sewer service is provided, is responsible to apply for service at time of sale. District will not accept change of property ownership or change in service responsibility from third parties.
3. At the time of service application, the new owner will become responsible for all current and past due billings, and all future billings (Note; past due billings are handled at time of sale/transfer per item #1 above).
4. District will not put the name of the tenant on service; the customer of record must always be the property owner.
5. If the name and address of the property owner is known to District, if different from the service address, invoices for sewer fees shall be mailed to the owner at the owner's address.
6. If the address of the property owner is different than the service used address, and owner's address is not known to District, invoices for sewer fees will be mailed in the name of the owner but mailed to the service used address.
7. The official source for owner's name will be Racine County Tax records.
8. Where current District records indicate a customer of record other than the property owner, such discrepancies shall be corrected promptly in accordance with the above procedures.
9. District will not perform partial month or partial period billing resulting from correction of owner/tenant information; all current and past charges are the responsibility of the property owner of record.
